

Muhammad Saad Jadoon

Artificial Intelligence Student | Machine Learning | Generative AI | Full-Stack AI Development

Email: m.saadjadoon1@gmail.com | LinkedIn: linkedin.com/in/muhammad-saad-jadoon | GitHub: github.com/muhammadsaadjadoon

PROFILE

Artificial Intelligence student at the University of Haripur with a 4.0 CGPA, focused on Artificial Intelligence, Machine Learning, Generative AI, and full-stack AI development. Experienced in building end-to-end AI systems, web applications, networking solutions, and performance-focused digital technology projects.

TECHNICAL SKILLS

AI / ML	Machine Learning, Deep Learning, Generative AI, LLMs, NLP, Computer Vision, Speech Intelligence, Prompt Engineering
Engineering	Python, Scikit-Learn, PyTorch, Pandas, NumPy, XGBoost, Pydantic, FastAPI, React, REST APIs
Networking	LAN, VLAN, Cisco routers/switches, DHCP, DNS, IP addressing, network security, troubleshooting
Digital	WordPress, SEO, Technical SEO, Google Ads, Meta Ads, Social Media Management, SEO Content Strategy

EXPERIENCE

Machine Learning Virtual Intern - CodeAlpha

Jul 2026 - Aug 2026

Built four end-to-end ML projects across finance, speech intelligence, computer vision, and healthcare: Credora, INFLECT, WriteLens, and HeartTrack.

Generative AI Virtual Intern - Decode Labs

Jul 2026 - Aug 2026

Developed Generative AI applications across intelligent code review, copy and tone transformation, multimodal AI, and conversational AI.

IT & Computer Networking Intern - Telephone Industries of Pakistan (TIP)

Jul 2025

Completed hands-on networking work involving LANs, VLANs, Cisco routing/switching, DHCP, DNS, addressing, access control, and troubleshooting.

Lead Digital Consultant, Marketing Specialist & WordPress Developer

Professional Experience

Worked across WordPress development, SEO, Technical SEO, Google Ads, Meta Ads, social media management, content strategy, and digital growth.

SELECTED PROJECTS

Credora: Credit risk assessment with Logistic Regression, Decision Tree, Random Forest, feature engineering, model evaluation, and FastAPI/React integration.

INFLECT: Speech Emotion Recognition using RAVDESS, acoustic feature extraction, speaker-disjoint evaluation, calibrated RBF-SVM models, and privacy-aware processing.

WriteLens: Custom PyTorch CNNs for MNIST and EMNIST handwriting recognition with robust image preprocessing and runtime inference.

HeartTrack: Heart disease prediction comparing Logistic Regression, SVM, Random Forest, and XGBoost with cross-validation and probability calibration.

EDUCATION & RECOGNITION

BS Artificial Intelligence - University of Haripur (UOH) | Current CGPA: 4.0

Recognized among the top four students across the University of Haripur and recipient of the Prime Minister's Youth Laptop Award.

FSc: 1042 / 1100 marks

Additional involvement: humanitarian relief, food security logistics, and social welfare initiatives through MSO.
